

RETROSPECTIVE

Goal: Improving work in project organisations by identifying causes and discussing potential solutions

Retrospectives are dedicated sessions used by teams to reflect on their process and improve their work. Teams of knowledge workers in our organisations today need autonomy to perform their tasks. The role of the manager is to create a suitable environment for the teams to be effective. Retrospectives are meetings in which teams can reflect on their process to uncover what works for them and what could be improved in delivering their work.

Teamwork

How can I use it?

This workshop provides an exercise to improve project management across different organisational roles.
